Weekly Work Summary

During this week, the team prepared the main materials for the database-testing seminar on the EShop system.

Member	Completed work	Deliverables
Nguyễn Phan Hùng Linh	Prepared and organized the seminar report, including the tool overview, EShop testing workflow, comparison, limitations, and evidence structure.	Database Testing Seminar Report
Nguyễn Chí Đức	Co-authored and revised the User Guide; prepared the seminar slide deck and the audience activity worksheet.	User Guide, seminar slides, Activity Worksheet
Thôi Đăng Trường Thọ	Co-authored and revised the User Guide to make the installation and first-test instructions clearer for beginners.	Revised User Guide

Shared Outcome

The team now has the main materials needed for the pre-seminar share and the live EShop demonstration: the Database Testing Seminar Report, User Guide, seminar slide deck, and Activity Worksheet.

Next Step

Review the materials together, prepare the live demonstration environment, and submit the required files to the shared Moodle folder before the seminar deadline.
